

### Solar In-Ground Light

china Solar In-Ground light is made of ABS plastic, stainless steel .It's one of best selling products of our company.It can be used in multiple venues in Garden ,Lane Square and pathway.

Model:XLTD-1910

### Product Description

#### Detailed description of Solar In-Ground light:

|                 |  |               |  |
|-----------------|--|---------------|--|
| Item No.        | XLTD-1910                              | Inner box     | 12.4*12.4*12.8CM<br>/4PCS/BOX 0.594kgs |
| Solar panel     | Monocrystal/Polycrystal<br>2V 100MA    | Carton        | 38*26*54.5cm<br>/96PCS/CARTON          |
| Battery         | 1*1.2V AA 600mAh<br>NI-MH battery      | N.W./G.W.     | 11/13kgs                               |
| Lighting source | 8 super bright SMD                     | Qty/container | 48000/96000/116500pcs                  |
| Durable time    | up to 8-10 hours with fully<br>charged | MOQ           | 1000 *color box                        |
| Product size    | 11.5X11.5x13.5cm                       | Material      | ABS+SS                                 |

### The description of solar In-Ground light

- 1.Metal shell deformation and corrosion resistance.
- 2.Solar panels high photoelectric conversion efficiency.

- 3.reinforced pins insert into the ground the light body is not easy to tilt.
- 4.Soft glue switch key soft rubber waterproof protection switch does not enter water.

### **Why choose solar In-Ground light?**

This solar In-Ground light is available in cold white light and warm white light.You can also choose different brightness profiles according to your own requirements, i.e. the number of LEDs, we have 4 LEDs,8 LEDs,12 LEDs.We have carried out a waterproof test on this solar In-Ground light, which can reach the highest IP67. You can rest assured that it can be used in a variety of environments, and the super-bright lamp beads will achieve the best aesthetic effect without bringing you a dazzling feeling.The solar In-Ground light is your best choose.

### **The advantages of solar In-Ground light**

- 1.rainproof grade IP65 no fear of any weather outdoors
- 2.long working time,It can work for 10 hours after being fully charged,illuminating the whole night
- 3.Intelligent light control automatically charge when the light is off during the day and automatically light up at the night
- 4.Increase solar panels to absorb sunlight more quickly Increase the lighting time by 50%
- 5.Reinforce the four corners without breaking,two reinforced lines ensure easy insertion,effortless
- 6.Reinforcement pin special treatment insert soil without deformation
